

Montmeló, Barcelona, Spain –April 2008

MERQUINSA launched First Renewable Pearlbond® ECO TPU grades for Adhesives at WAC 2008 -Miami, USA.

Merquinsa launched its new renewable-sourced **Pearlbond® ECO** TPU (Thermoplastic Polyurethane) grades for adhesives at the World Adhesives Conference from April 20th to 23rd.

Pearlbond® ECO product grades include **Pearlbond® ECO D900**, which is designed for a wide range of footwear and textile applications, such as eco-friendly shoe stiffeners or thermobonding textile tapes and films (75% renewable content as certified according to ASTM-D6866). And also **Pearlbond® ECO D590** for High Performance Reactive Hot Melts (RHM), especially designed for the automotive and furniture industries.

Furthermore, Merquinsa participated in the conferences held during the exhibition within the “Going Green: Exploring ReNEWable Resources” session, with the paper “New Thermoplastic Polyurethane from Renewable Sources for Adhesives”.

MERQUINSA would like to thank again all its customers and visitors who visited us at the stand.

Merquinsa’s headquarters are in Montmelo, near Barcelona, Spain; with regional centers near Boston, USA, and in Hong Kong.
